## Summary

This report aggregates 1 experiments spanning over the following subjects: kubernetes

## Experiment

# What is the impact of deleting a pod without a grace period?

If the pod is terminated, we should spin up a new pod.

## Summary

Status	completed
Tagged	kubernetes
Executed From	chaos-toolkit-test-79cdb9fc78-z9dht
Platform	$\label{linux-4.18.0-193.29.1.el8_2.x86_64-with-red hat-8.3-Ootpa} \\ \text{Linux-4.18.0-193.29.1.el8} \\ \text{2.x86\_64-with-red hat-8.3-Ootpa} \\$
Started	Thu, 25 Feb 2021 14:15:41 GMT
Completed	Thu, 25 Feb 2021 14:15:42 GMT
Duration	1 second

#### Definition

The experiment was made of 5 actions, to vary conditions in your system, and 10 probes, to collect objective data from your system during the experiment.

## Steady State Hypothesis

The steady state hypothesis this experiment tried was "Verifying services are healthy and pod accepts api request".

#### Before Run

The steady state was verified

Probe	Tolerance	Verified
count-pods	14	True

### After Run

The steady state was verified

Probe	Tolerance	Verified
count-pods	14	True

#### Method

The experiment method defines the sequence of activities that help gathering

evidence towards, or against, the hypothesis.

The following activities were conducted as part of the experimental's method:

Type	Name
probe	count-pods
probe	pod-is-not-available
probe	pods-in-conditions
probe	pods-not-in-phase
probe	read-pod-logs
action	terminate-pods
probe	statefulset-fully-available
probe	service-is-initialized
action	delete-deployment
probe	deployment-available-and-healthy
action	scale-deployment
action	remove-service-endpoint
action	scale-microservice
probe	microservice-available-and-healthy
probe	read-microservices-logs

## Result

The experiment was conducted on Thu, 25 Feb 2021 14:15:41 GMT and lasted roughly 1 second.

## ${\bf Probe\ -\ count\text{-}pods}$

Status	succeeded
Background	False
Started	Thu, 25 Feb 2021 14:15:41 GMT
Ended	Thu, 25 Feb 2021 14:15:41 GMT
Duration	0 seconds

The probe provider that was executed:

$\mathbf{Type}$	python
Module	chaosk8s.pod.probes
Function	$\operatorname{count}_{\operatorname{pods}}$
Arguments	{'label_selector': 'app=spring-config-client', 'ns':
	'cmst-test'}

## Probe - pod-is-not-available

 Status
 failed

 Background
 False

 Started
 Thu, 25 Feb 2021 14:15:41 GMT

 Ended
 Thu, 25 Feb 2021 14:15:41 GMT

 Duration
 0 seconds

The probe provider that was executed:

Type python

Module chaosk8s.pod.probes

Function pod\_is\_not\_available

Arguments {'name': 'app=spring-config-client', 'ns': 'cmst-test'}

The pod-is-not-available probe raised the following error while running:

```
Traceback (most recent call last):

#### Probe - microservice-available-and-healthy

Status	failed
Background	False
Started	Thu, 25 Feb 2021 14:15:42 GMT
Ended	Thu, 25 Feb 2021 14:15:42 GMT
Duration	0 seconds

The probe provider that was executed:

Type	python
Module	chaosk8s.probes
Function	microservice_available_and_healthy
Arguments	$\{ \text{`name': `spring-config-client'} \}$

The *microservice-available-and-healthy* probe raised the following error while running:

```
Traceback (most recent call last):

## Appendix

#### Probe - count-pods

The *probe* returned the following result:

14

## Probe - pod-is-not-available

The *probe* returned the following result:

None

#### Probe - pods-in-conditions

The probe returned the following result:

None

## Probe - pods-not-in-phase

The *probe* returned the following result:

None

## Probe - read-pod-logs

The *probe* returned the following result:

{}

#### Action - terminate-pods

The action returned the following result:

None

## Probe - statefulset-fully-available

The probe returned the following result:

None

## ${\bf Probe\ -\ service\hbox{-} is\hbox{-} initialized}$

The *probe* returned the following result:

True

## Action - delete-deployment

The action returned the following result:

None

#### Probe - deployment-available-and-healthy

The *probe* returned the following result:

None

## Action - scale-deployment

The action returned the following result:

None

### Action - remove-service-endpoint

The action returned the following result:

None

#### Action - scale-microservice

The action returned the following result:

None

## Probe - microservice-available-and-healthy

The *probe* returned the following result:

None

#### Probe - read-microservices-logs

The *probe* returned the following result:

None
